

Meeting 3 (10.11.24) – Things to Fix

- Scatterplots by year (instead of just by month)
- Click on zip code to change the plots (organize plots better)
- Scatter plots for products and revenue (Elimdar)
- Customers and products for specific zip code
- Change all product ID's to actual names of products
- Make graph of products per each zip code
- Fix order of months on the products bar graph
- Pie charts? (one for each zip code with the products sold)
